THEFT TRUCK TREND IN ITALY

In Italy the trucks' theft is a real problem increasing day by day. A real business that in 2014 continued the gradual growth: **almost 7 trucks are stolen every day.**

SECURITY: A NEW CONCEPT

Two main pillars which became more and more relevant in the last years for logistic and transport companies.

They are at the forefront of everyone's mind when travelling.

In order to comply those needs, the necessity to implement solutions that do not include only the presence of a single security tool, it is becoming more and more relevant.

A methodological global approach allows the definition and the enforcement of the security process to obtain the ESPORG/TAPA certification.

Security for restricted area

Security in a heterogeneous system

European Security system

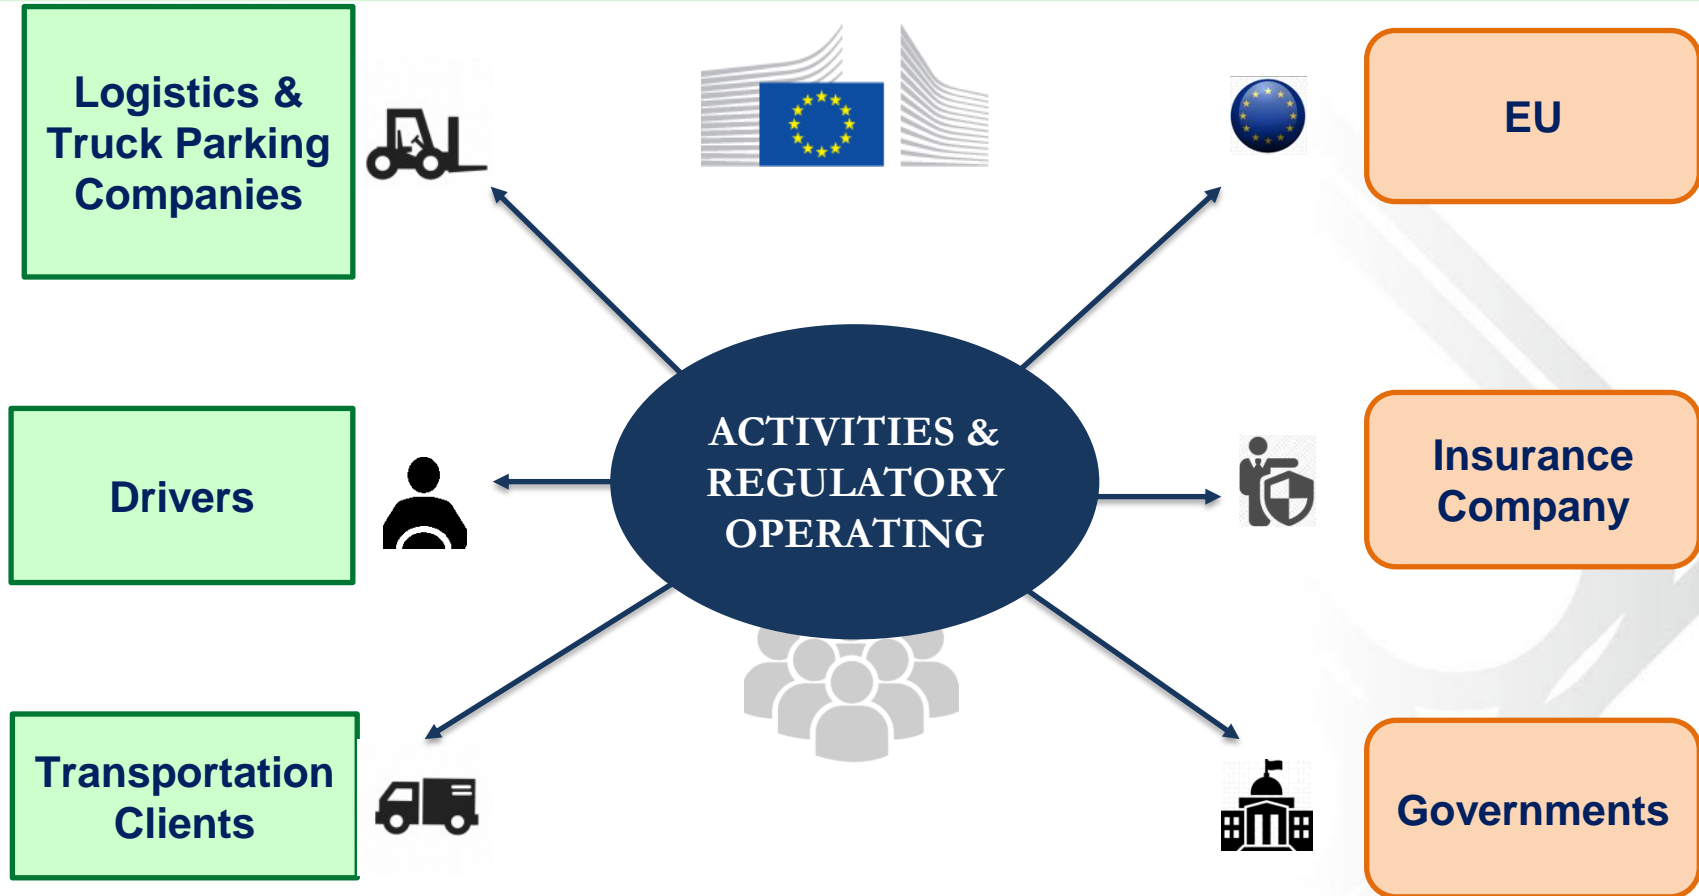

3 LOCKS SECURE PARKING

- 290 secure truck parking lots
- Complete surveillance 
- Armed night watchman patrol 
- Only one way road → improved safety 
- Traceability of each truck's enter/exit
- Tracing enter/exit of each person/driver (turnside)
- LED illumination 

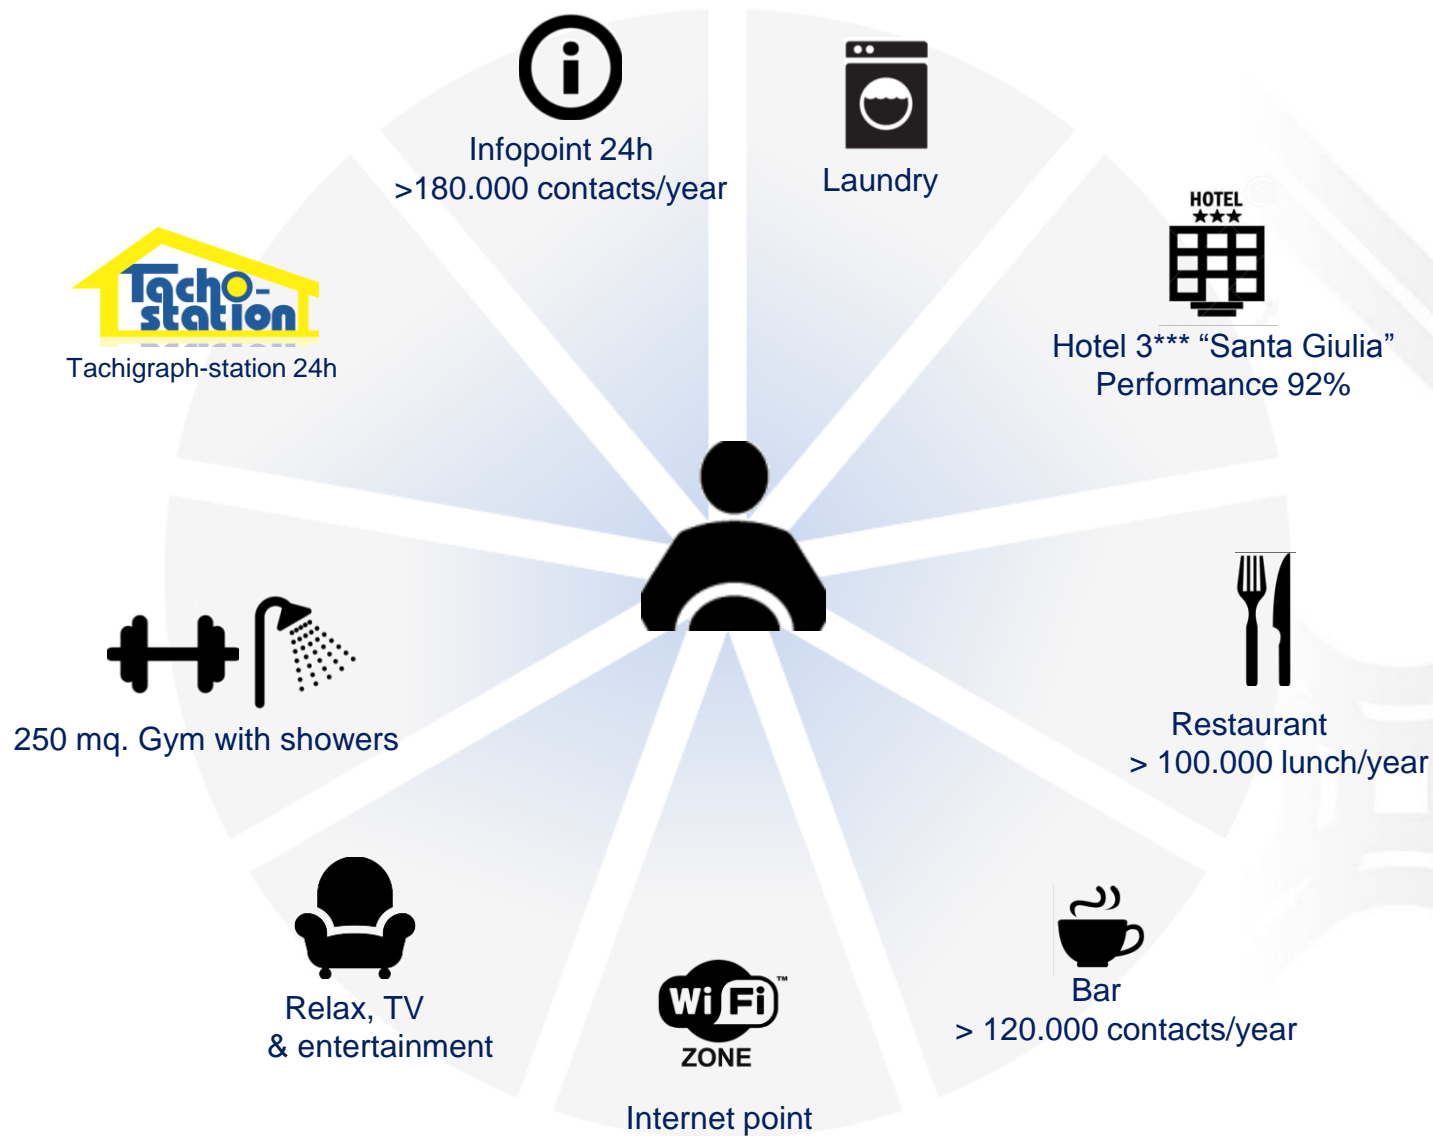

**AUTOPARCO BRESCIA EST is the first
secure parking in Italy classified as
3 LOCKS ESPORG CERTIFICATION**

WHAT'S NEXT?

Autoparco Brescia Est already took up the actual challenges in the world of professional transportation, providing safety&security both for drivers, trucks and cargo trailers.

This become a reality investing mainly in technology and programs in order to make traceable every vehicle and person once they join the structure.

MISSION: improve the actual security standards to the top of the European circuit, maintaining the leadership in Italy.
