TOLLING. MOVING SMARTER.

ASECAP-IBTTA cooperation

A JOINT TOLLING DECLARATION

Preamble

Tolling is one of the most powerful and effective tools to finance, build, maintain, and improve road infrastructure for the benefit of road users and citizens.

ASECAP, the European Association of Operators of Toll Road Infrastructures and IBTTA, the worldwide Association for the owners and operators of toll facilities and the businesses that serve tolling, strongly believe in the positive effects of using tolls to support road infrastructure in all the countries they represent around the world.

ASECAP and IBTTA think that a wider application of tolling policies, based on the user pays principle, will be highly beneficial for governments - especially those that face severe economic pressure and may not have enough funds either to support new infrastructure or improve existing ones - and the users, who can immediately see the benefits they receive for the fees they pay on the road infrastructure they use.

Based on these beliefs and our strong commitment to implement our Memorandum of Understanding and Cooperation, we are proud to present this joint Tolling Declaration and to demonstrate the reasons why tolling supports mobility and economic growth in North America and in Europe, as well as in other regions of the world.

Dubrovnik , ASECAP Days
May 2013

Tolling is one of the most powerful and effective tools to finance, build, maintain, and improve road infrastructure for the benefit of road users and citizens.

Media

- More than 1000 media mentions of IBTTA in print
- More than 100 articles specifically highlighting IBTTA and tolling

International Members and Tolling Facilities

INTERNATIONAL MEMBERS & TOLLING FACILITIES

LEGEND
 COUNTRIES WITH IBTTA MEMBER AGENCIES

ETC Interoperability: lots of common elements between the US and the EU

- ETC in the U.S. : from individual toll agencies to the creation of regional interoperability consortia (likewise in the EU ...)
- most widely used technology: E-Zpass, applied in 16 U.S. States
- Strong interest in achieving Nationwide IOP in the U.S., following Congress 2012 legislation
- As Buddy has underlined *“this mandate from the Congress has energized our industry and IBTTA has made a commitment to the U.S. Congress and we will soon have in place a protocol and a set of business rules that each agency in the U.S. can adopt over a period of time to **bring value to their customers**”*.

Upcoming Meetings

Summit on All-Electronic Tolling, Managed Lanes & Interoperability

July 24-26 | Boston, MA

www.ibtta.org/BOSTON
