ASECAP DAYS

ISTANBUL 2023

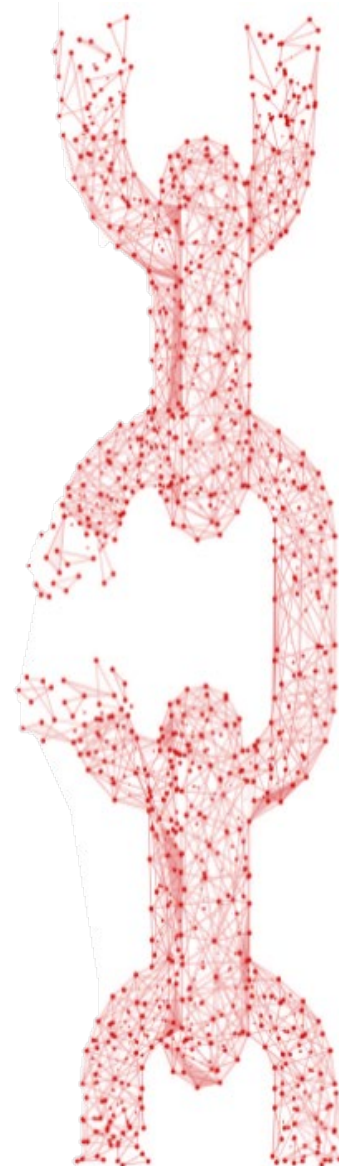

Celebrating
YEARS
50
OF Successful
TOLL ROAD PROJECTS

Debt collection and Networking

NETWORKING

You try to optimize your business by sharing best practices, exchanging solutions, getting advantage of each other

The difference to what we do is, that we have an organization structured to optimize results constantly with all players involved during the whole year

DEBT COLLECTION

Plays an important role in your industry, not only but especially for free flow tolling solutions

Debt collection is one of the key components to ensure that road operators can finance these projects and invest in new technology

How to Reduce Toll Violations?

Considering debt collection as an essential support, we may also reduce toll evasions and prevent them upfront

 Educating users

 Customer-oriented collections

 Clear and personalised communication

 Global coordinator collections

Global Project Management

Ensuring that the customer-oriented approach, communication, timing and payments are implemented perfectly

Head of the Affiliated Network

ETIKA has been founded to generate international Network solutions for companies with international collection issues.

ETIKA is today the head of an established affiliate Network, managing projects:

In over 100 countries

Acting From Each Single Country

In The Local Language

Considering The Specific
Legislative Aspects

Authorizations And
Compliances

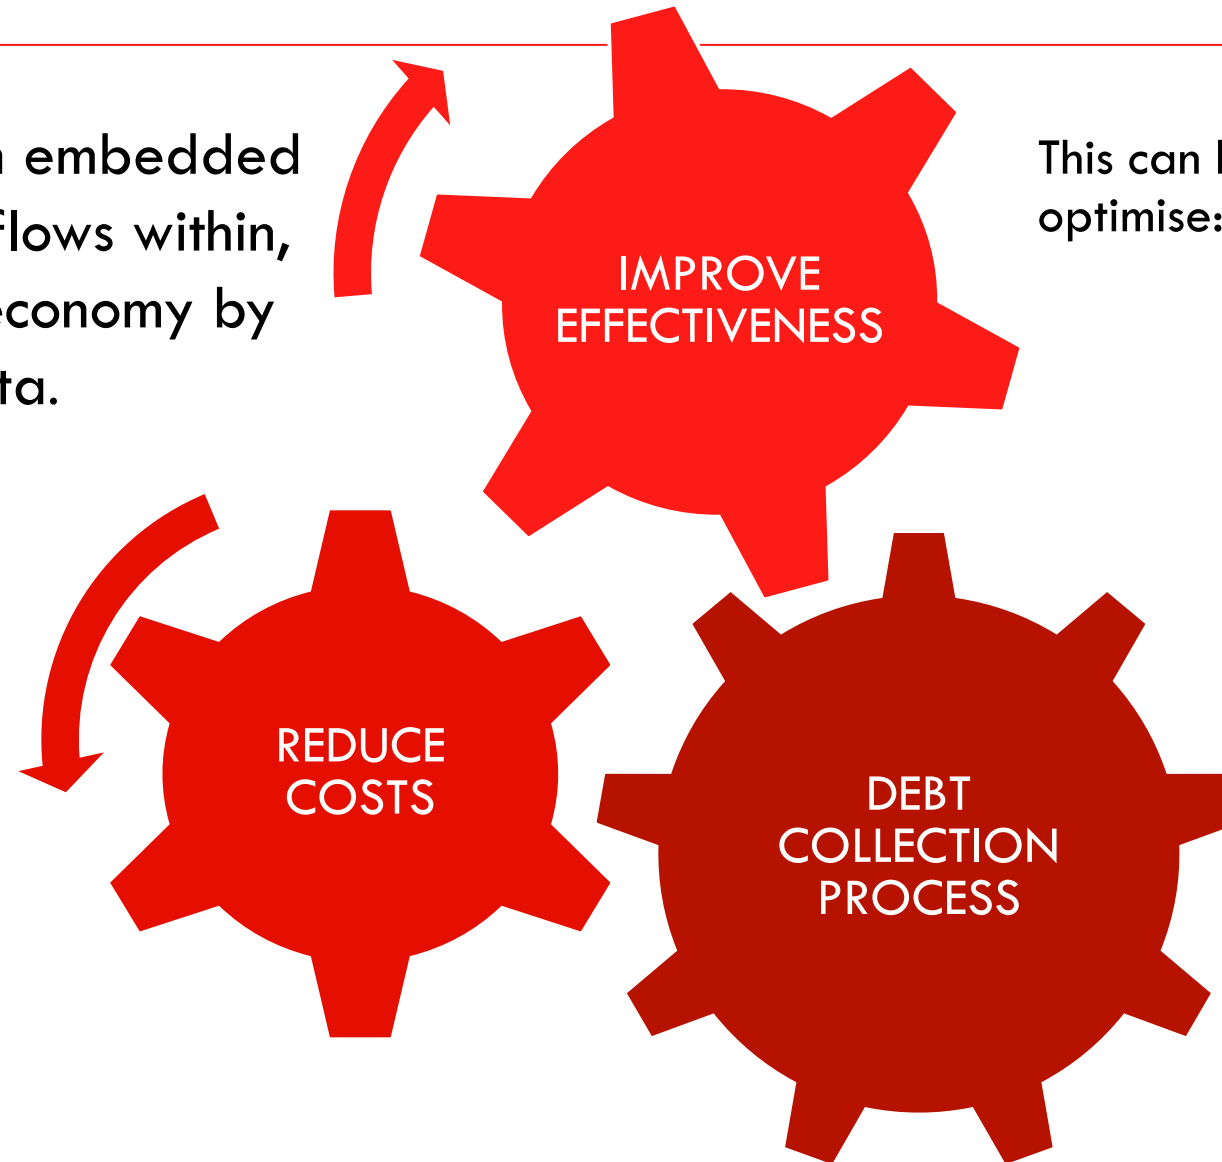

Collecting In The
Specific Country

On Local Bank Accounts

ETIKA's Network Economy

The Network represents an embedded system where information flows within, improving the overall net economy by exchanging insight and data.

This can help the toll operator optimise:

Key Features
