GLOBALVIA

# Changing the world together

We are world leaders in managing transport infrastructure concessions and mobility services, designed to promote the sustainable development of the communities in which we are present. Our more than 28,000 employees manage more than 250 million trips a year in 12 countries according to the most demanding quality standards. Our goal is to be the drivers of change to transform society in countries where we are present:

Australia, Chile, Colombia, Costa Rica, Ireland, Norway, Portugal, Singapore, Spain, Sweden, United Kingdom and United States.

MAIN DATA

## Globalvia

*At Globalvia, we understand the transport infrastructures we manage as agents of change with the potential to transform society.*

*We approach our work every day with the commitment to offer the highest quality standards for our users and to contribute to the development of society, generating a positive impact wherever we go, especially in the communities close to our projects.*

Strategy based in the  
international expansion

12 countries

250 million trips  
a year

28,000  
employees in our  
concessions\*

Openvia Mobility, the **innovation and technology platform of the Globalvia Group** created in 2020, has the mission to develop new services and business models oriented to the mobility of the future.

## Mobility

Digital Business Platform

- Road Operations
- New mobility use cases: LEZ, RUC,...
- User Apps

## +20

Success Stories

- B2B -- More than 15 happy road operators
- B2C -- Happy users

## 4

Subsidiaries

- Spain
- Portugal – platform service team
- USA
- Bluenest by Globalvia

# Our cybersecurity framework to Govern, Identify – Protect – Detect – Respond and Recover from attacks

## Level 3: Red Team

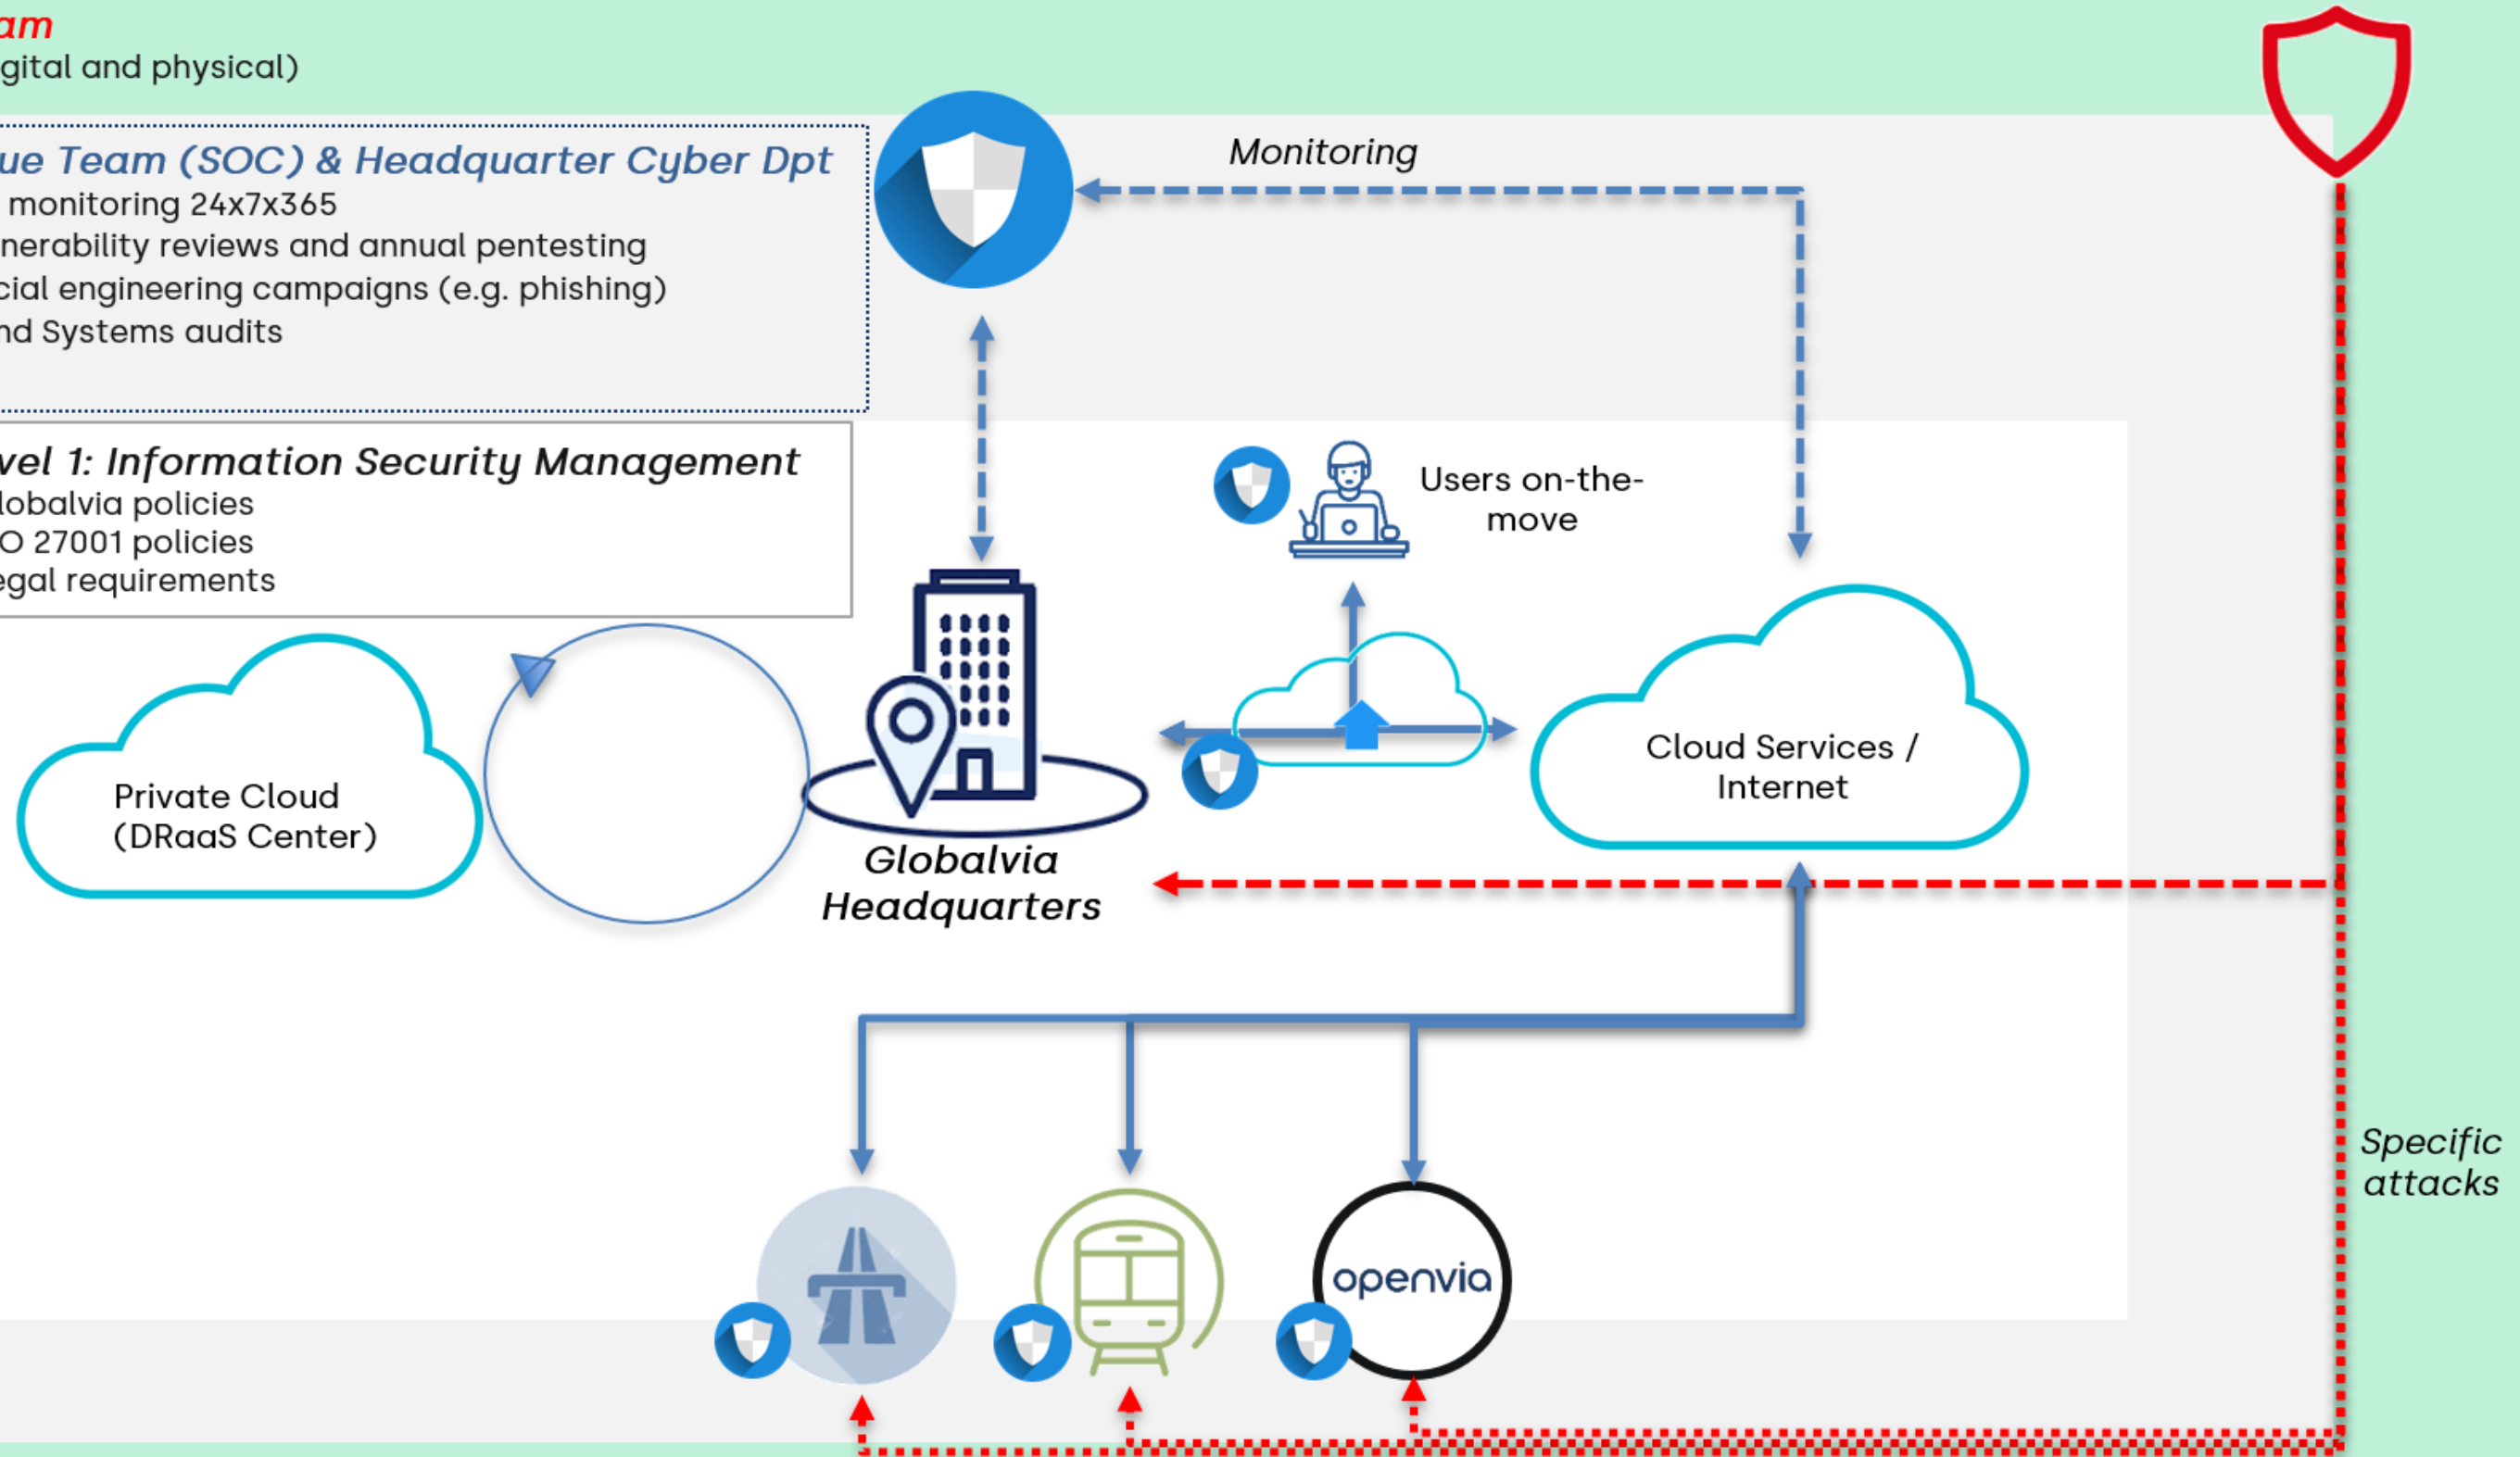

Specific attacks (digital and physical)

### Level 2: Blue Team (SOC) & Headquarter Cyber Dpt

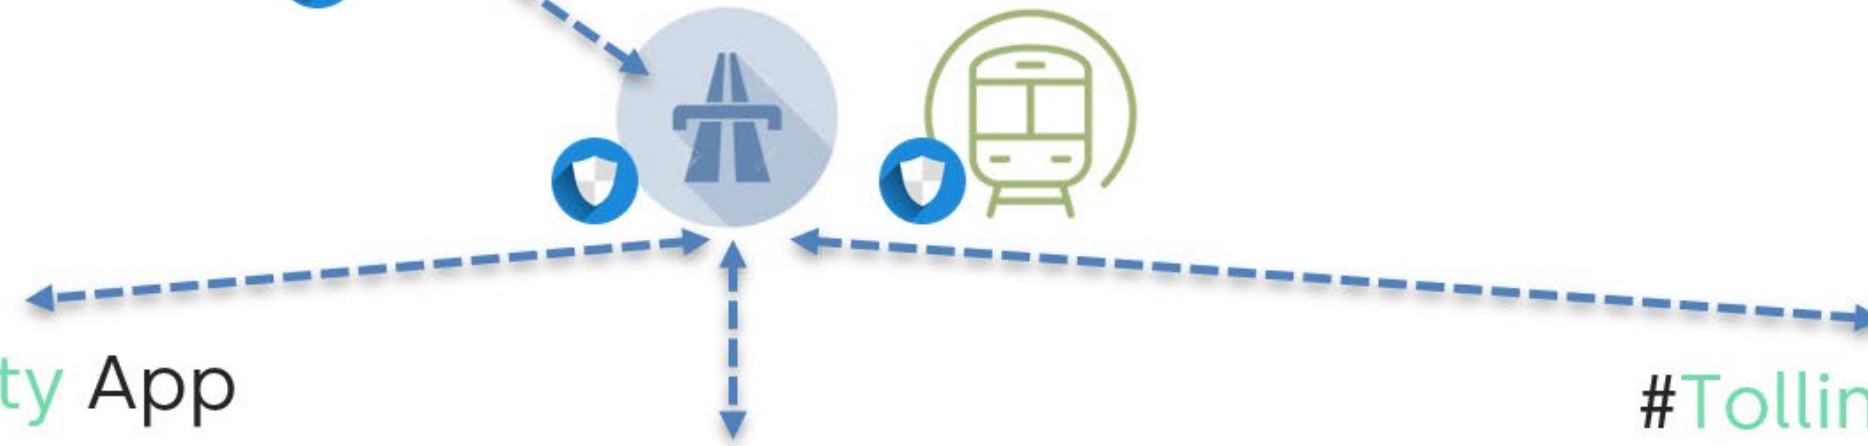

- Continuous monitoring 24x7x365
- Periodic vulnerability reviews and annual pentesting
- Periodic social engineering campaigns (e.g. phishing)
- Software and Systems audits
- Forensics

### Level 1: Information Security Management

- Globalvia policies
- ISO 27001 policies
- Legal requirements

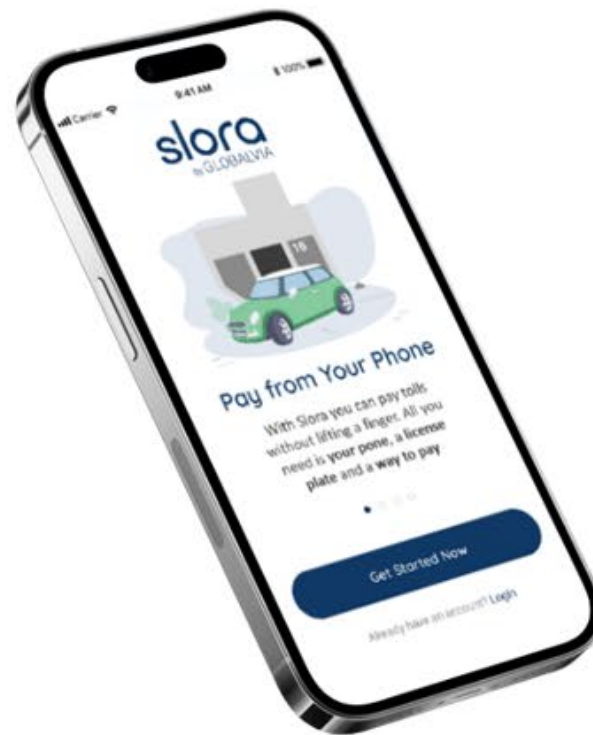

# Openvia Solutions

## #Slora Mobility App

- Tolling payment B2C app
- User App
- Potential GPS RUC solution

## #Geomic

- Operation and Maintenance management services
- Real time data fusion and traffic events identification.
- C-ITS capabilities

## #Tolling Solutions

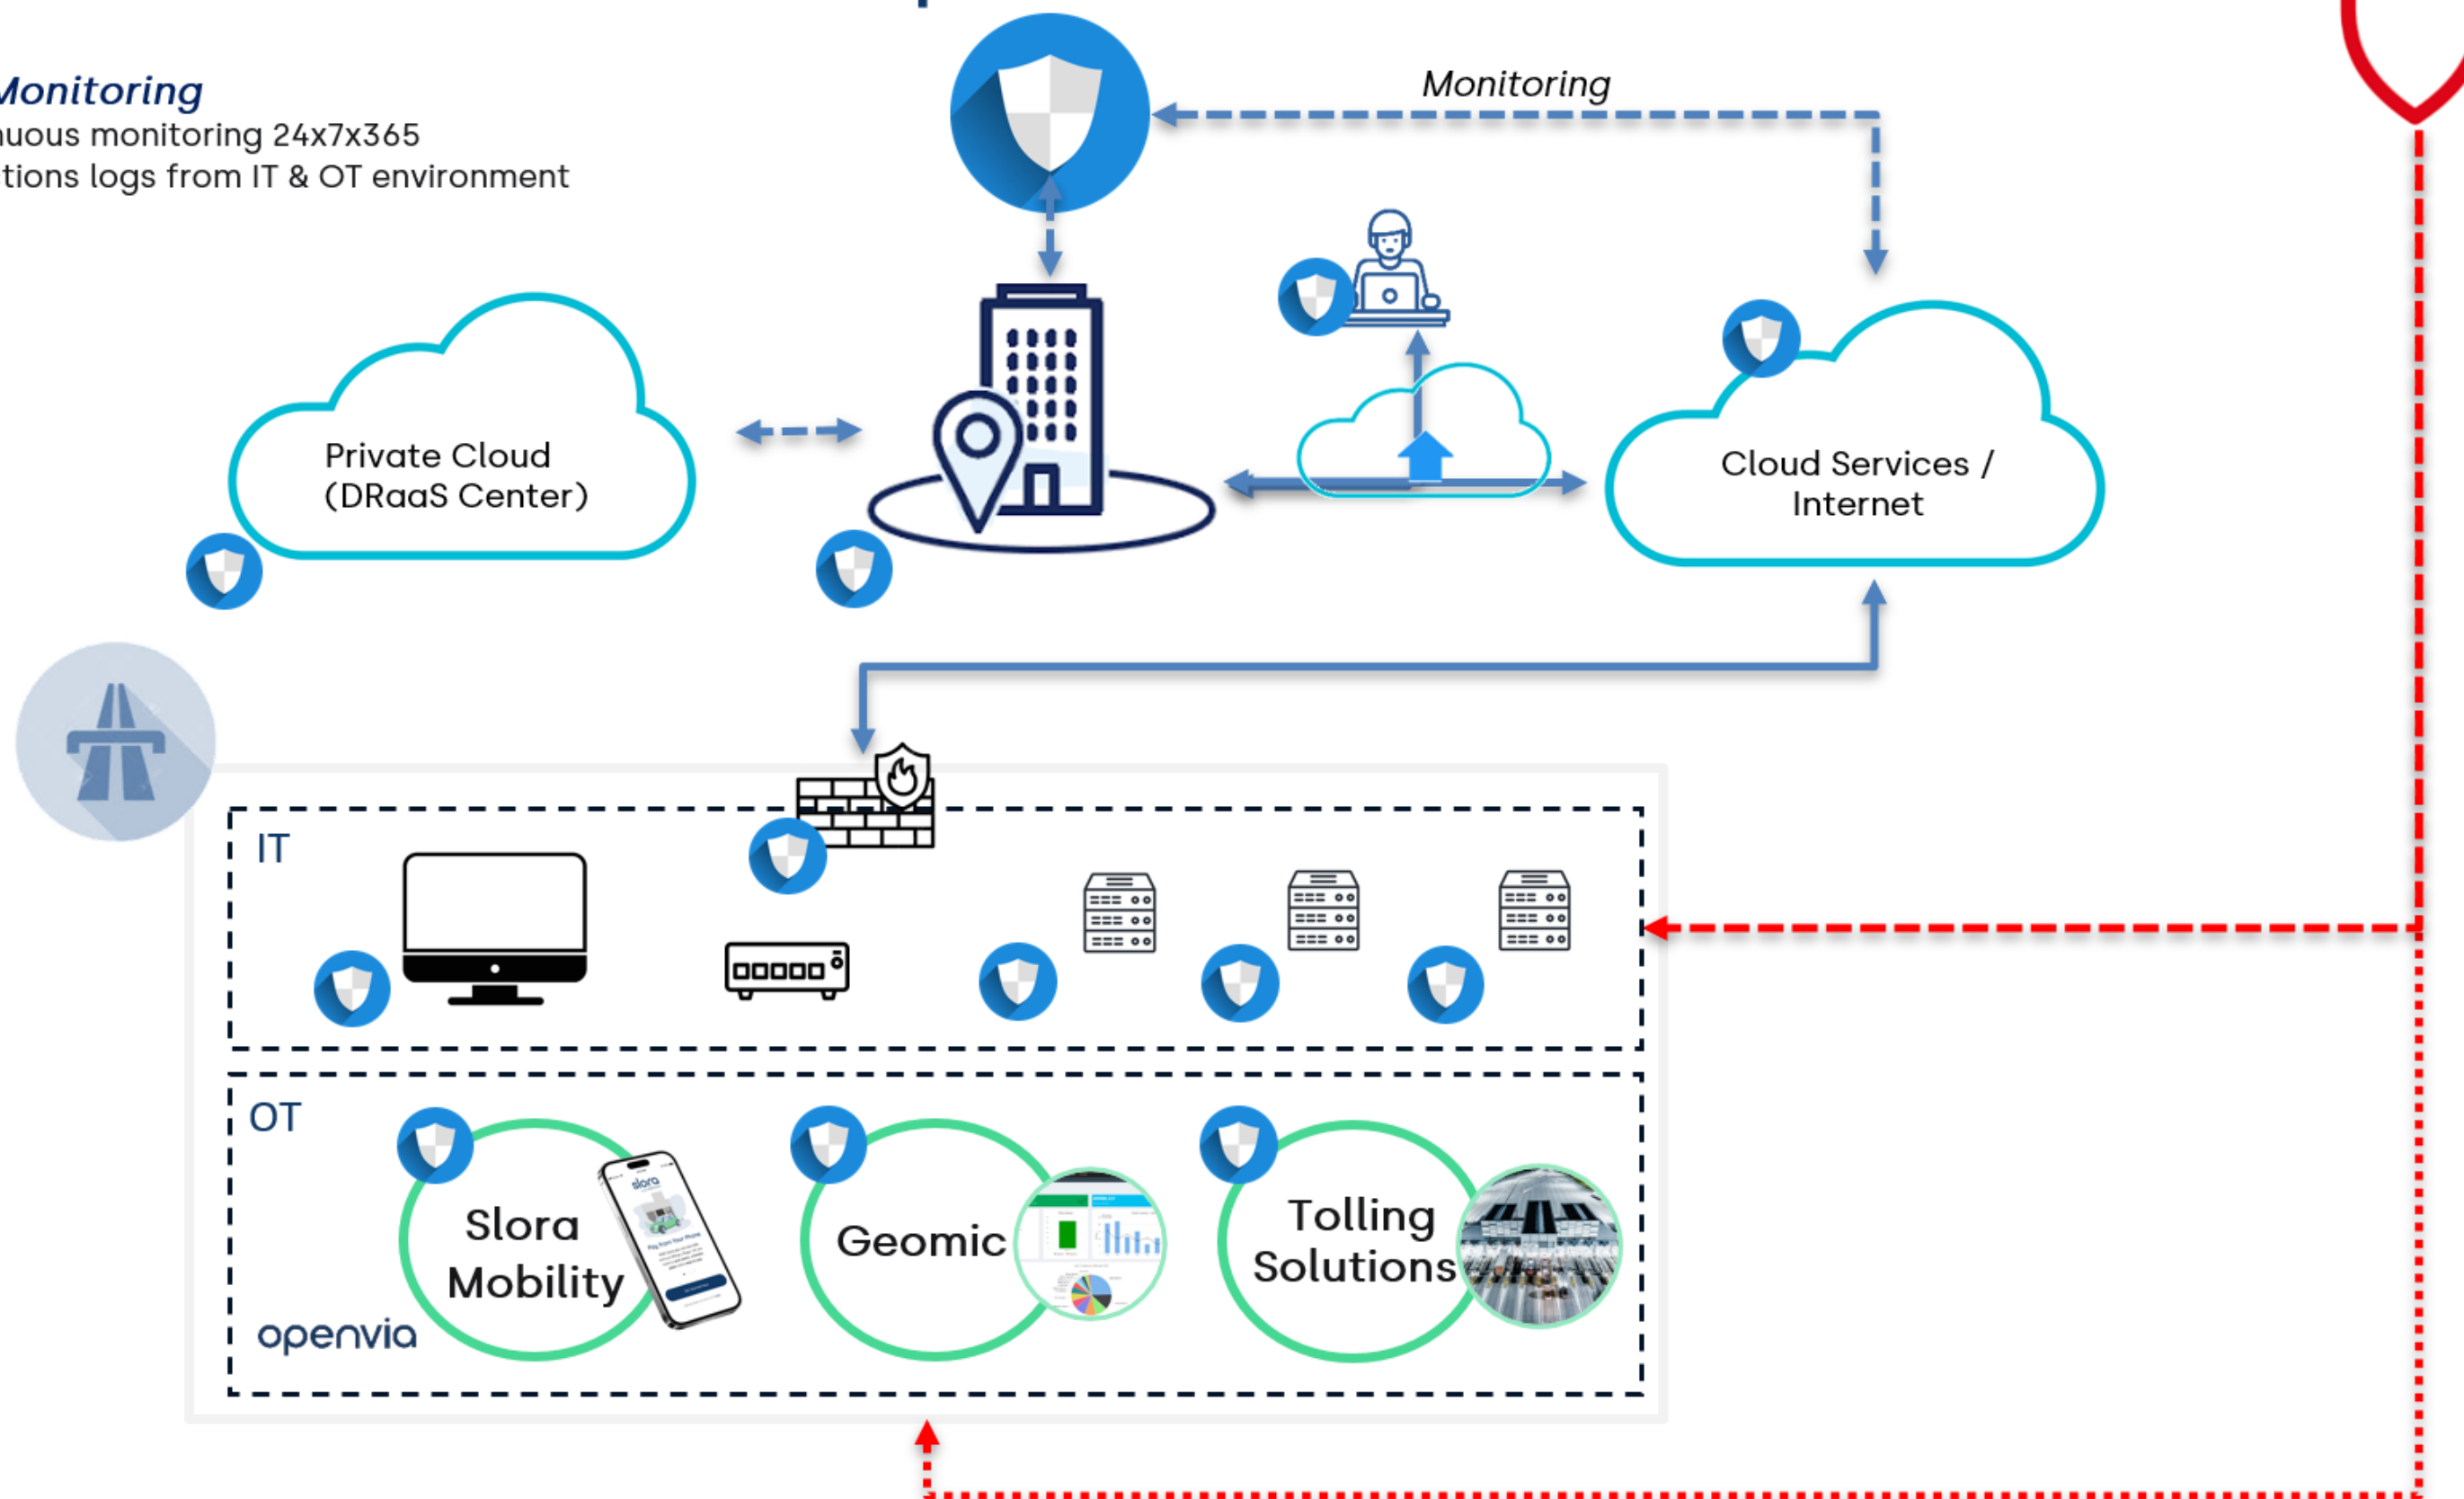

- Operational & Commercial services
- Openvia Tolling Plaza
- Openvia Tolling Back-Office

# Example of Subsidiaries

## SIEM Monitoring

- Continuous monitoring 24x7x365
- Collections logs from IT & OT environment
