GREEN DEAL PROJECTS

Ing. Jakub Kysel

Head of Project Implementation from Foreign Resources

MAIN CONSTRUCTOR AND OPERATOR OF MOTORWAYS AND EXPRESSWAYS IN SLOVAKIA

Funding sources and their use in motorway and expressway construction:

- ❑ State budget – construction and operation
- ❑ Foreign funding sources – construction and upgrades

Funding through EU funds:

- ❑ 3.4 billion EUR reinvested
- ❑ 49 projects

CURRENT USE OF FOREIGN FUNDING SOURCES

Significant part of funding

Construction of new sections

Minor part of funding

Green Deal projects, project
documentation, studies, upgrades

THE FUTURE OF FUNDING FROM FOREIGN SOURCES

THE MOST IMPORTANT PRINCIPLES OF EU-FUNDED PROJECTS IN THE FIELD OF ROAD INFRASTRUCTURE:

- Greater focus on environmental sustainability
- Mitigating negative impact on the environment
- Limited EU funding sources for road infrastructure development
- Emphasis on high-quality projects

NDS FOCUSES ON PROJECT PREPARATION IN LINE WITH THE GREEN DEAL REQUIREMENTS:

- *Investing in the reduction of CO2 emissions:*
 - Intelligent transport systems
 - Using environmental-friendly materials during the construction and repairs of road infrastructure
- *Green and sustainable technologies:*
 - Greater use of renewable energy sources
- *Improving energy efficiency:*
 - Upgrade of tunnel and bridge lighting using the latest technology
- *Support for electromobility:*
 - Building high-capacity e-charging stations
 - Developing supporting infrastructure for e-mobility

KEY FACTORS FOR SUCCESSFUL ROAD INFRASTRUCTURE PROJECTS FOCUSING ON GREEN DEAL:

- ☐ Sufficient funding provided by the European Union
- ☐ A clear definition of support areas in road infrastructure development
- ☐ Ensure co-financing for project implementation
- ☐ Timely preparation of projects
- ☐ High quality of projects
