# CHARGED FOR CHANGE

**BRISA GROUP COMMITMENT WITH SUSTAINABILITY**

ORGANIZED BY

HOSTED BY

**The European climate law legally mandates that the EU must achieve a minimum reduction of 55% in its emissions by 2030.**

**Sustainability** is one of Brisa Group's corporate values and is also integral part of its business strategy with a redesigned and strengthened sustainability agenda.

---

## Brisa Group's Growth Vision

Be a **leader** in Portugal and a world reference in the **effective and sustainable management of mobility infrastructure and solutions**

Brisa Group wants to be **more ambitious in its ESG objectives** and positioning as a sustainability leader

### Brisa Group ESG Strategic objectives

- Reduce scope 1 and 2 carbon emissions in 60% by 2030 (vs 2021)
- Achieve Net Zero by 2040
  - Corporate vehicles fleet 100% electric by 2025
  - Light operational fleet 100% electric by 2030

# Fleet electrification is part of Brisa Group Decarbonisation Plan

## Key Challenges

Vehicles

Infrastructure

People

## Vehicles capable of meeting the operational needs

Fleets with high and dynamic operational routines represent notable challenges - i.e autonomy needs, limited downtime for vehicles charging and cost-efficiency solutions

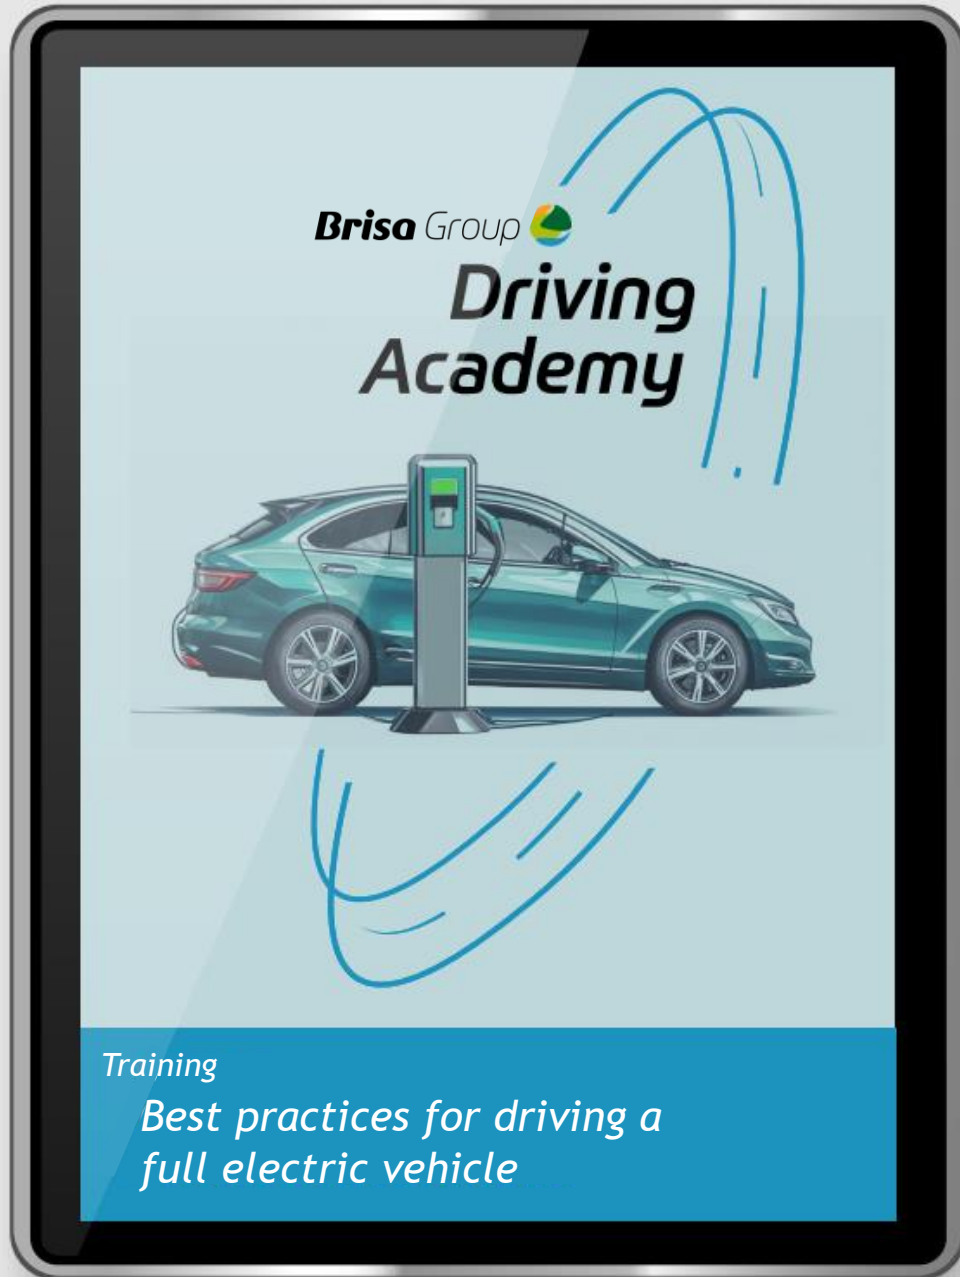

## Brisa Group's response to EVs [1] needs: A new EV-Charging infrastructure

- A network of fast and ultra-fast electric charging points on Brisa's motorways  
**98 electric chargers** (end 2023)
- An internal network of **260 charging points** (+200 in 2024/25)

**Customers** play a key role  
in the **electrification  
strategy** of the Brisa Group

---

Through dispelling myths and offering comprehensive education, it becomes feasible to **empower customers** to provide **knowledge of driving techniques** that achieve greater **yield and efficiency** in the use of electric vehicles
